## When a short stay would help...

### REHABILITATION SUPPORT

After a hospital or rehabilitation stay returning home can be overwhelming as you consider all the help you might require. There is a need to coordinate meals, personal care, skilled services, housekeeping and the very real desire for companionship and, perhaps, someone to take charge. In a respite apartment, you would benefit from our nursing support and services. You can rely on us to coordinate outside services such as therapy and lab work. You can feel free to concentrate on a speedy recovery.

### RESPITE CARE

Your basic needs are being met right now, but your caregiver needs some time for their own health or vacation. Our assisted living can meet your short term needs. Be surrounded by attentive staff and know that you are well fed, secure, and with people who care.

### TRIAL RESIDENCY

Moving to an assisted living is a very big step. You may be reluctant, not knowing if you can make such a big move, if it's right for you. We invite you to stay with us for a "trial run". Get a feel for life here, meet our residents and staff, enjoy our activities and delicious meals, and experience the support and services we offer to all our residents.
